MPAMOT Africa

Information Security Policy

We at MPAMOT AFRICA (herein after called the 'Company') are committed to maintaining and improving information security within our practices and minimizing both our and our stakeholder's exposure to data security risks.

It is therefore Company policy to ensure that:

The confidentiality of corporate, stakeholder and customer information will be assured

- Sensitive information will be protected against unauthorised access.
- The integrity of information will be maintained.
- Information will only be made available to authorised business processes and employees as required.
- Regulatory and legislative requirements will be met.
- Business continuity plans for mission critical activities will be produced, maintained and tested.
- An information security training program will be implemented and available to all staff.
- All breaches of information security, actual or suspected, will be reported and investigated by company security personnel.
- This applies to all information collected, used or disclosed in the course of commercial activities by Company.

Date: 19/08/2025

Place: Randburg, South Africa
